

Hosted Services

Hassle free and secure solution hosting

Insoft Hosted Services

InSoft Hosted Service is a fantastic way to take advantage of the InSoft solutions range without the need for a large and costly internal IT infrastructure.

With the InSoft Hosted Service, your database and InSoft applications are securely housed within our robust hosting environment. The InSoft Hosting Datacentre includes high level hardware redundancy and internet connectivity to ensure reliable and fast access to your InSoft applications. Our experienced and skilled database administration staff then take care of the servers, server maintenance, software upgrades, licensing and security – so you don't have to.

InSoft Hosted Services also includes all the database administration services and functions provided with InSoft DBA services for the continued smooth and reliable operation of your insurance and business management applications.

Benefits for your business

- Reduced IT infrastructure costs and requirements
- Reduced IT staff and support costs
- Exceptional database support from a team of highly skilled and certified Oracle Database professionals
- Ensure that best practises and accepted database support methodologies are always used
- Reduce the risk associated to reliance on a single database administrators skill sets, knowledge or availability
- High level infrastructure redundancy and connectivity
- Regular weekly backup and disaster recovery services and testing

InSoft Hosted Services – hassle free and secure solution hosting
