

Solution Guide

Making it easier for you to deliver more!

Your Solution

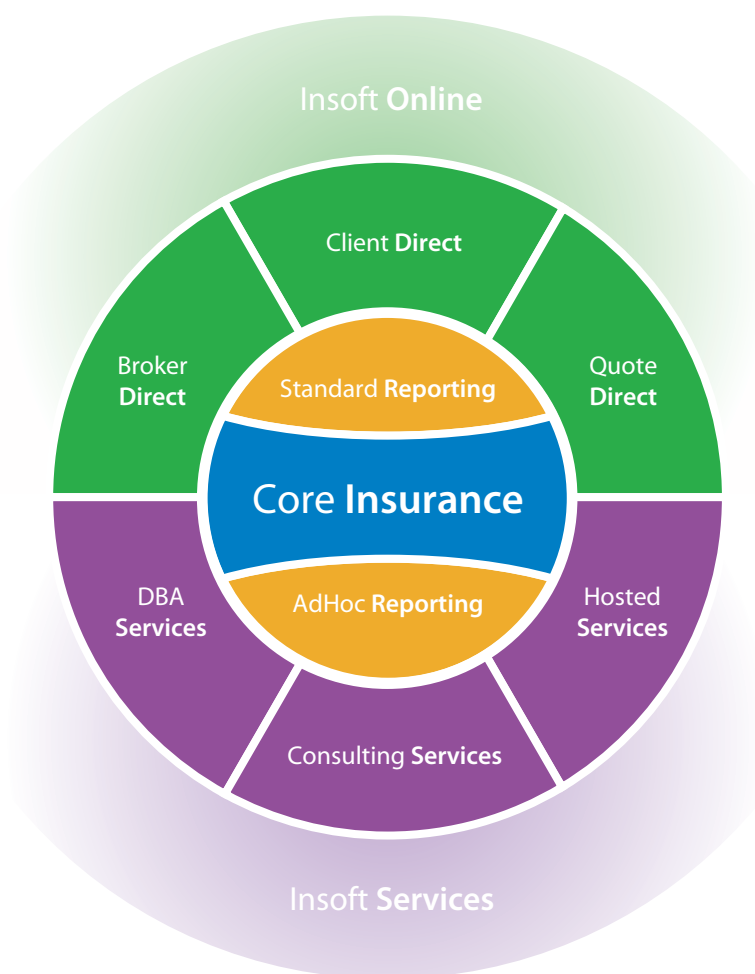

The Insoft solution range includes:

-  Core insurance and reporting software to meet your back-office insurance needs covering client, policies, claims, accounts and reporting functionality.
-  Web based software solutions that enable your clients and intermediaries to access their information and your insurance services instantly online.
-  Professional services to support your business and to help manage your insurance IT infrastructure.

Together as a complete solution, or separately as individual products the Insoft solutions range can meet your business requirements.
